

ABDUL JAMEEL AHAMED NAJAH

Computer Engineer | AI/ML Engineer & React Developer | Sri Lankan
najahaja00@gmail.com | github.com/najahaja | linkedin.com/in/ahamednajah | Portfolio: Najah.tech

Professional Summary

Final-year Computer Engineering student specializing in AI/ML (TensorFlow, PyTorch) and full-stack development (React.js, Node.js). Built production-ready apps and intelligent systems using Agile workflows. Seeking an AI/ML Engineer or React Developer to apply academic knowledge in real-world solutions.

Work Experience

1. React Developer

YoungDevIntern Company, Remote

09/2024 - 10/2024

- Built 3+ production-ready web apps using React.js, Redux, Tailwind CSS, and Vite for responsive UIs.
- Collaborated with cross-functional teams to deliver modular interfaces using Agile/SCRUM workflows.

2. IT Support

The University of Lahore, Lahore, Pakistan

06/2024 - 08/2024

- Automated **data cleanup**, boosting system performance by **20%**.
- Monitored **10+ university portals**, maintaining **99.9% uptime** for 5,000+ users.
- Managed **IT inventory** with digital tools, reducing asset loss to **0%**.

Technical Skills:

- **AI/ML:** TensorFlow, PyTorch, Keras, Scikit-learn, NLP, Computer Vision
- **Programming Languages:** Python (Advanced), C++, Java
- **Data Science:** Pandas, NumPy, Matplotlib, Seaborn, SQL
- **Frontend:** React.js, Redux, TailwindCSS, HTML/CSS, JavaScript
- **Backend:** Node.js, MySQL, REST APIs
- **Tools & Platforms:** Git, Docker, Jupyter Notebook, Google Colab, VS Code, AWS (basic)
- **Soft Skills:** Agile Methodologies, Problem-Solving, Collaboration, SCRUM

Education

BS in Computer Engineering	Lahore
The University of Lahore	10/2022 – 05/2026
CGPA: 3.91/4.00	
Certificate in Hafiz of the Quran	Sri Lanka
East Ceylon Arabic College	02/2011 - 05/2016
KM/AK/Addalaichenai Madhya Maha Vidyalayam	Sri Lanka
A/Level	01/2017 - 08/2020
O/Level	01/2016 - 12/2016

Languages

English- Proficient	Tamil-Native
Urdu-Intermediate	Sinhala-Intermediate

Projects

1. Fashion Lookbook – Web Engineering Semester Project

- Developed an interactive fashion tagging platform using React.js & Tailwind CSS with clickable product hotspots.
- Implemented dynamic overlays and modular UI design for seamless user-product interaction.

2. Hospital Management System – DBMS Semester Project

- Built a full-stack app (React.js, Node.js, MySQL) for appointments, login, and medical records.
- Designed secure REST APIs and role-based access for doctors and patients.

3. ReactJS Portfolio – YoungDevInterns

- Created a personal portfolio with Vite, React.js & Tailwind CSS, showcasing skills and projects.
- Designed a responsive layout with modular sections and contact form functionality.

4. ReactJS Blog – YoungDevInterns

- Developed a dynamic blog using React.js and Markdown with Tailwind CSS.
- Enabled routing, live previews, and mobile responsiveness for reading and writing content.

5. ReactJS Clone Site – YoungDevInterns

- Recreated a full website UI with React.js and Tailwind CSS focusing on pixel-perfect design.
- Built reusable components and ensured client-side interactivity and responsiveness.

6. Password Generator (React)

- Built a password generator app in React.js with real-time validation and clipboard support.
- Included custom options for length, characters, and secure password handling.

7. FAQs App (React)

- Designed an interactive FAQs app using React.js with collapsible entries and smooth toggling.
- Optimized for mobile-first experience and intuitive user interface.

8. E-Commerce Cart App (React + Vite)

- Built an e-commerce cart using React.js and Vite for product browsing and cart management.
- Included state persistence, responsive layout, and dynamic price updates.

Certifications

- **Advanced Learning Algorithms** – Coursera
- **Improving Deep Neural Networks: Hyperparameter Tuning, Regularization and Optimization** – Coursera
- **Structuring Machine Learning Projects** – Coursera
- **Neural Networks and Deep Learning** – Coursera
- **Supervised Machine Learning: Regression and Classification** – Coursera
- **Unsupervised Learning, Recommenders, Reinforcement Learning** – Coursera
- **Data Analysis with Python** – freeCodeCamp
- **Scientific Computing with Python** – freeCodeCamp
- **Advanced React** – Coursera
- **Interactivity with JavaScript** – Coursera
- **Legacy JavaScript Algorithms and Data Structures** – freeCodeCamp
